ABOUT ME

I'm Naveed Abbasi, a Full-Stack Developer with 1+ year of professional experience building and maintaining production-ready web applications. Experienced in developing responsive frontend interfaces, REST APIs, database-driven systems, third-party integrations, and cloud-based deployments. Strong problem-solving skills with experience working on real-world projects and collaborating with cross-functional teams.

WORK EXPERIENCE

Tribicx | September 2025 – Present

Full-Stack Developer

Developing and maintaining full-stack web applications using MERN and PERN stacks. Building REST APIs, integrating third-party services and payment gateways, managing databases, using Prisma and Docker, and deploying production-ready applications on AWS.

Verior | May 2025 – July 2025

MERN Stack Developer (Intern)

Developed scalable backend APIs using Node.js and integrated REST/FastAPI services to optimize data flow. Converted Figma designs into responsive React.js/Next.js interfaces, improving mobile user experience.

Digital Elliptical | Oct 2024 – Jan 2025

React Developer (Intern)

Worked on live projects using React.js and Next.js, converting Figma designs into responsive frontend applications, integrating APIs and Firebase services, and collaborating with cross-functional teams to deliver complete solutions.

EDUCATION

Virtual University of Pakistan | Continue

BS Software Engineering

Currently pursuing a Bachelor's degree in Software Engineering, building a strong foundation in software development, system design, programming, and modern software technologies.

SKILLS

- HTML, CSS, TailwindCSS
